Ali Alnimer | UI/UX Designer

AliAlnimer39@gmail.com | +966 58 282 8038 | Dammam, Saudi Arabia (Open to Relocation)
Portfolio: alialnimer.sa | LinkedIn: linkedin.com/in/ali-alnimer

Summary

UI/UX designer with 3+ years designing enterprise and university platforms. Redesigned a campus-wide publishing workflow that cut daily operational time by over 80% and built a 35+ component design system for Aramco Digital's B2B marketplace.

Professional Experience

EPAM Systems | UI/UX Designer | Mar 2026 – Sep 2026

- Delivered the UI/UX of Aramco Digital's B2B marketplace (client project) with a fellow designer in a Scrum team.
- Turned the Product Owner's user stories into 10+ responsive screens, including a product details page with 5 states.
- Shaped 2 purchasing flows (Plan and Device) and a comparison feature, iterating on client feedback.
- Built a design system of 35+ reusable components on MUI (Material UI), improving consistency and maintainability.
- Worked with 2 front-end developers through handoff and implementation, running UI testing to ensure design accuracy.

King Fahd University of Petroleum & Minerals (KFUPM) | UI/UX Designer | Apr 2023 – Sep 2025

- Led the end-to-end redesign of KFUPM Today, the daily digest for 15K+ campus readers, from research to prototyping.
- Centralized offers for 40K+ students and graduates into 1 platform (KFUPM Offers) with a unified layout.
- Created the Visit KFUPM registration platform, which registered 3,000+ visitors across 62 bi-weekly campus tours (50–70 per tour), with request channels for international delegations and visits from government agencies and other institutions.
- Ran usability testing on 5 projects, using high-fidelity prototypes to validate and refine design decisions.
- Reviewed designs and prototypes for 5+ projects across other departments to ensure brand consistency.
- Produced 15+ visual assets per month for digital campaigns, in line with the university's brand identity.

Projects

KFUPM Today (KFUPM) | Apr 2025 – Sep 2025

- Designed a unified platform that handles ~30 weekly submissions: guided submission with live preview, status tracking, content and design review, scheduling, and automated email notifications.
- Redesigned the publishing workflow to cut daily operational time from 3–5 hours to under 30 minutes, replacing manual copy-and-paste with automatic inclusion of approved items in Wagtail CMS.
- Validated submission time, status tracking, and feedback transparency in usability tests with 3–5 participants.
- Wrote publishing guidelines and standardized content categories, ending duplicate categories caused by typos.

KFUPM News Website (KFUPM) | Oct 2024 – Sep 2025

- Benchmarked 4–5 leading university news platforms to set the UX direction and site structure.
- Applied the findings to a 4-category public website UI, working with developers to ensure design accuracy.
  Case study: alialnimer.sa/work/kfupm-news

FPL Weekly (Personal Project) | Sep 2026 – Present

- Shipped a free web app that generates personalized Fantasy Premier League (FPL) weekly and mini-league reports.
- Defined product, UX, and feature requirements, and built the app end-to-end with Claude Code (AI-assisted).
